

BETANAT®

BETANAT®

β-Carotene from

Blakeslea trispora

BENEFITS

Effective vitamin A precursor: the natural source of beta-carotene with the highest beta-carotene content, practically all-trans, enables the best provitamin A conversion factor.

High stability in different conditions: enables colour / nutrient stability

Clean label: natural origin, "all natural formulations" available

Vs synthetic: no impurities from process

Vs other natural sources: highest all-trans beta-carotene content, declaration as beta-carotene (E 160 a (ii) 2).
