Extinguishing Media: In case of small fire use dry chemical powder, In case of large fire use water spray, fog or foam.

Unsuitable extinguishing media: Do not use water jet.

Special Fire Fighting Procedures:

Use firefighting procedure that is appropriate to treat surrounding fire. All firefighters should use self-contained breathing apparatus and full fire-fighting turn-out gear.

Unusual Fire Explosion Hazard: During a fire, irritating and highly toxic gasses may be generated by thermal decomposition or combustion.

Auto Ignition Temperature: Not Available

---

### **SECTION 6 - ACCIDENTAL RELEASE MEASURES**

Isolate hazard area and deny entry to unnecessary or unprotected personnel.

Contain spill, collect and place in a disposal container. Avoid runoff into storm sewers and ditches which lead to waterways, nontoxic and biodegradable, but very slow biodegradation due to low water solubility, strong dyeing effect.

## **SECTION 7 - HANDLING AND STORAGE**

Keep away from heat. Keep away from sources of ignition. Empty containers pose a fire risk; evaporate the residue under a fume hood. Ground all equipment containing material. Do not breathe gas/fumes/ vapor/spray. Wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. If you feel unwell, seek medical attention and show the label when possible. Avoid contact with skin and eyes. Keep away from incompatibles such as oxidizing agents.

Suitable materials: Stainless steel, glass, polyethylene.

Storage conditions: Keep container tightly closed - cool - protected from light - protected from humidity - Do not store above 23 °C.
